

# 1911-3-100-45

The Kendall Howard 45U 2-Post Rack is a perfect for wiring closets, telecom rooms and data centers. This 19" EIA Compliant rack is sturdy and has an 800 pound weight capacity. The unique design offers both tapped 10/32 rails and universal cage nut rails. The self-squaring design makes assembly a snap, and with 6 possible anchor points to ensure stability the Kendall Howard 45U 2-Post Rack is perfect for any environment.

Easily mount patch panels, switches and other rackmount components. Use Kendall Howard Cable Managers to ensure a neat and organized installation. When this rack cannot be anchored to the floor use the Kendall Howard 2 Piece Conversion kit to secure the rack to the wall and increase stability. The Conversion kit also works great to lace or route trunk cables.

The Kendall Howard 25U 2 Post Rack is proudly Made in the USA and back by our Limited Lifetime Warranty
